

Canopy and patio roofs

The magic of outdoor living, brought indoors

A memorable summer evening with friends.
An outdoor birthday party that's not ruined by the weather.
A barbecue that doesn't get rained off.

THE IDEAL SOLUTION, WHATEVER
YOUR DREAM

OUR SKYLUX ROOF SYSTEMS

Climalux

This self-supporting profile system is supplied made-to-measure. The Climalux roof is self-supporting up to 4.50 m in width between two posts, with 16 mm plastic sheets (with a depth of 3 m) and self-supporting up to 4.50 m in depth. The roof pitch is variable between 5° and 10° (standard 8°). Climalux can be built with or without roof overhang.

Climacrown

If you are drawn to the modern flat roof with the advantage of a sloping roof for water drainage, the Climacrown won't disappoint. It is based on the Climalux profiles, with a modular crown profile as an extra feature. The Climacrown roof can be provided with 16 or 32 mm plastic sheets or glass of 8 or 10 mm. Climacrown is preferably used with a pitch of 5°.

Climax Panorama

Thanks to the innovative GDG gutter profile, Climax Panorama is self-supporting up to 7 m in width between two posts (with 16 mm plastic sheets and a depth of 3 m). It is self-supporting up to 5.50 m in depth. The roof pitch is variable between 5° and 20°.

Climalux Horizon

Climalux Horizon is self-supporting thanks to the integration of the GXLX gutter. Span lengths up to 5 metres are possible, depending on the snow load, depth and glazing. The roof slope varies between 5° and 10° (8° as standard) and is fitted for single glazing (8 or 10 mm) or 16 mm or 32 mm plastic sheets.

Climax

Provided the raised GD2 gutter support is used, the Climax roof is self-supporting up to 7 m in width between two posts (with 16 mm plastic sheets and a depth of 3 m) and up to 5.50 m in depth. The roof pitch is variable between 5° and 45°. Both 16 and 32 mm thick (insulating) plastic sheets or maximum 34 mm thick glass can be used as glazing for your thermal Climax roof.

Climacar

Resilient and freestanding carport with a vaulted roof and Skylux self-supporting aluminium profiles. Only 4 posts instead of 6 and a maximum height of 3.23 m.

Climalux

THE POPULAR CHOICE FOR A STANDARD MULTI-PURPOSE ROOF

A memorable summer evening with friends?

An outdoor birthday party that's not ruined by the weather?

A barbecue that doesn't get rained off?

The Climalux roof system is the solution,
whatever your dream.

Maximum dimensions

WIDTH: ∞ // DEPTH: MAX. 4.50 M

A simple way to create more room

Why Climalux?

- ✓ budget-friendly and high-quality
- ✓ gutter and wall profile form 1 piece
- ✓ standard sizes in stock
- ✓ custom-made

Maximum dimensions

WIDTH: ∞ // DEPTH: MAX. 4.50 M

Climalux Horizon

SLEEK AND MODERN DESIGN

The budget-friendly Climalux Horizon offers you a great and undisturbed garden view. The profile system has a contemporary design thanks to a sleek looking gutter and post and hidden fasteners.

Enjoy an undisturbed
garden view

Why Climalux Horizon?

- ✓ sleek and contemporary design
- ✓ a wide view at an affordable price
- ✓ span length of up to 5 metres without disturbing elements blocking your view

Climacrown

CHOOSE A SLOPING ROOF WITH THE APPEARANCE OF A FLAT ROOF

If you are drawn to the modern flat roof with the advantage of a sloping roof for water drainage, the Climacrown won't disappoint. The Climacrown is based on the Climalux profiles, with a modular crown profile as an extra feature.

Maximum dimensions

WIDTH: 7 M // DEPTH: MAX. 4.50 M

Why Climacrown?

- ✓ the height of the crown profile depends on the roof's depth and is built in stages of 75 mm
- ✓ no screws visible on the outside

A minimalist design for your patio roof

Climax Panorama

OPEN UP YOUR VIEW

A state-of-the-art roof to bring that luxury holiday feeling to your home.
Outdoor feeling at its best with the Climax Panorama
and its span length of up to 7 metres.

Indoor comfort in
your garden

Maximum dimensions

WIDTH: ∞ // DEPTH: MAX. 5.50 M

Why Climax Panorama?

- ✓ free span length for a large garden view
- ✓ attractive 'panoramic' look
- ✓ numerous possibilities

Maximum dimensions

WIDTH: ∞ // DEPTH: MAX. 5.50 M

Climax

THE VERANDA SOLUTION THAT TICKS ALL THE BOXES

Get the daylight you crave, create a room for the children to play in, or use the space to entertain your friends. The Climax is in a class of its own and enables outdoor life to be lived at its fullest.

From simple to versatile

Why Climax?

- ✓ many combinations possible
- ✓ for warm (veranda) and cold roofs (patio/canopy roof)

Climacar

THE ULTIMATE PROTECTION FOR YOUR CAR

Protecting your car against all weathers, from bright sunlight to heavy hail and snow, can be challenging, particularly with the increase in extreme weather events associated with climate change.

The Skylux Climacar provides a strong defence against anything that the seasons can throw at you! Easy to install and available in several sizes, colours and versions.

Why Climacar?

- ✓ resilient and freestanding carport with a vaulted roof
- ✓ no supporting wall needed
- ✓ only 4 posts instead of 6:
easier for you to get in and out of your car
- ✓ max. height of 3.25 m
- ✓ quick and easy installation
- ✓ several standard sizes

REALLY MAKE YOUR PATIO ROOF STAND
OUT FROM THE CROWD WITH OUR RANGE OF OPTIONAL EXTRAS.

Choose your extras

Climaglide

Climaled

Vertical sunblind

Windbreak and triangles

Climaglide

The Climaglide sliding glass doors (single glazed) protect you from the wind and rain. Bring warm summer evenings inside and never miss a moment. Climaglide is available with a carrier system or with glass panels that can slide separately.

Climaled

Ideal lighting with Climaled: an easily installed and pre-assembled dimmable LED spotlight system. The perfect solution for your veranda!

Vertical sunblind

Blinds are essential during the warm summer months. A well-fitted blind protects you from insects, from the heat of the sun and the chill of the wind. Skylux's new veranda blinds help you to stay cool and they also screen out the glare associated with winter sun.

- 1. Remote control
- 2. Wall switch
- 3. Wireless solar sensor
- 4. Wireless wind sensor
- 5. Connexoon (interface to connect to internet/app)

Windbreak and triangles

The Skylux triangle profiles allow you to build a triangle- or rectangular-shaped frame in which glass or plastic can be installed. The Skylux windbreak protects against wind, sunlight, rain and creates privacy. Vertical profiles are included for a neat finish.

PROTECT YOURSELF FROM THE ELEMENTS

Shock resistant, safe, lightweight, insulating and aesthetic: probably the most important characteristics for a good glazing. Skylux has a wide range of sheets for your canopy or patio roof.

Plexiglas® or acrylic

- ▶ highly transparent
- ▶ UV resistant synthetic material
- ▶ guarantees the full spectrum of daylight
- ▶ no yellowing
- ▶ heat-reflecting version also available

Polyclear

- ▶ impact-resistant, safe
- ▶ lightweight
- ▶ well insulating
- ▶ appealing to the eye

Pergotop

- ▶ sandwich panels with an excellent insulation value
- ▶ easy to maintain anti-scratch surface
- ▶ available in several widths with (superior) noise reduction

All our profiles are suitable for safety glass (8, 10 or 12 mm) or for each type of insulation glass (34 mm).
Skylux does not provide the glass.

We'll help you to make

your dream come true

DAYLIGHT IS IN OUR DNA

We have a long history with daylight. 65 years ago, we were founded as a glass and mirror wholesale business called AG Plastics, based in Belgium. Today, our skylights are known throughout Europe for their **quality, style** and **durability**.

Beside skylights and barrel vaults, we also produce quality aluminium frames to allow fast construction of patios or canopy roofs and roofs with thermal break that are suited for verandas. Over the decades, our mission has never changed. Our driving force is **to bring as much light as possible to your life**, to be enjoyed all year round.

Our wide range of quality aluminium profiles consists of self-supporting profiles for cold and warm roofs and non-self-supporting profile systems.

Purchase

Found the patio roof or veranda that you've been dreaming of?
We'll guide you through the process, step by step.

Delivery

After order placement,
we will deliver all materials as soon as possible.

Installation

Installation is easy and we'll provide you with ample tips to make it
a smooth experience.

Realisation

Our experienced professionals can even follow the installation
if you'd like them to, to check that everything is okay.

Guarantee

Our profiles are CE certified in accordance with EN 1090-3.
Skylux offers a 10-year guarantee on lacquer quality,
a 5-year guarantee on colour and gloss retention and
a 2-year guarantee on electric parts such
as the Climaled.
